Why did you decide to become a Recon Licensee?

We see Recon as a growing business opportunity and a product whose production fits well as one of the core items that we offer.

What have you been able to achieve with Recon Wall Systems?

We were selling noise wall and MSE into the Council Bluffs and Omaha area. Our customer liked the quality of our product so well that he encouraged us to become a Recon Licensee and supply them with our Recon product.

What do you appreciate about the services and support offered by Recon?

We appreciate Recon's product knowledge and desire to share that information. Also the online training is a valuable tool for MPP and helping by not just marketing the product, but getting the Recon product specified in various markets and job opportunities benefits us as well.

Interested in becoming a manufacturer?
